January, 1883, of a tertian fever, A. D. NICHOLAS, of
London, aged 35 years.

The Daily Press.

HONGKONG, FEBRUARY 2ND, 1883.

A CONSTITUTIONAL CRISIS HAS ARSEN in
Japan. The occasion is the Budget. By
one of the articles of the constitution certain
items of expenditure are exempted from the
Diet's independent control, while with the
remainder it is free to deal as it likes. The
reserved expenditures are, first, those incurred
in the exercise of the Emperor's constitutional
powers; secondly, expenditures that appeal to
the legal obligations of the Government.
The expenditure under these heads amounts,
as we learn from the *Japan Mail*, to
\$20,000,000, while that under the direct

control of the Diet amounts only to
\$20,000,000. The House of Representatives,
however, is not content with exercising a
control over the items included in the lesser
sum, but has been applying the cutting down
process to those included in the larger, with
which it is constitutionally incompetent to
deal, and as to which its functions are of a
purely advisory character. It is competent
to discuss the several items, and to make re-
commendations thereon, but if the Govern-
ment decline to accept the recommendations,
then nothing remains for the Diet, accord-
ing to a strict reading of the constitution,
but to pass them as they stand. But the
House of Representatives declines to be
bound by the strict reading of the constitution.
It has made certain recommendations of
its own, and has voted a bill to that effect.
The Diet, however, has declined to accept
the bill, and has voted a bill of its own, to
the effect that the recommendations of the
House of Representatives are to be rejected.
The *Japan Mail* says that 500 jinrikisha,
made to the order of Shung, Customs Facial at
Tientsin, and intended to ply between that port
and Peking, are to be sent to the North at an
early date.

The Northern Pacific steamer, *Tsushima*, arrived
at Yokohama yesterday morning from China,
and sails for this port direct to-day, the 2nd inst.

The *H. M. S. Empress of China*, from Hong-
kong, arrived at Kobe at 1.30 a.m. yesterday and
left again at 1 p.m. for Vancouver via Yokohama.

The *Mercury* understands that 500 jinrikisha,
made to the order of Shung, Customs Facial at
Tientsin, and intended to ply between that port
and Peking, are to be sent to the North at an
early date.

From a native paper we learn that on the 3rd
January the Ministers of the Taungli-Yamda
and Presidents of the various Boards at Peking
called upon the Ministers of the Treasury Powers
requesting the latter to afford the usual New
Year's gratulations. Much cordiality was dis-
played on both sides.

At the office of the *Post Office* the
Standard Mail Company yesterday, we learn
that a letter was received from the *Post Office* in
regard to the arrival of the mail steamer *City*
of Peking, but that at present no apprehension
exists, and that the most probable explanation
of the delay is that the *City* has been detained
at the port of Taku.

At

opportunities of trying that coal and are able to give a report upon it and say something about it. There is a very great amount of Hongkong money invested in the Tonkin mines, and I think that it is almost the duty of engineers of the port to do what they can, if it is possible, to prevent some of the coal of Tonkin from being used. It might lead to some trouble if they were to say where the effects of the coal lie. As it is a matter of very great moment to Hongkong, I think engineers of the port ought to give it some attention. I should be very glad indeed if some of you would bring forward a paper on it at some future meeting. I am sure you good would support it and I commend it to your attention. (Applause.)

Mr. RAMSAY then proposed a vote of thanks to the President (Mr. Gillies).

Mr. A. JOHNSON seconded and the motion was carried with applause.

THE CHAIRMAN in reply said:—I assure you I am very sorry for the way in which you have referred to the small services that I have been able to render to the Institute. It has been a source of very great pleasure to me indeed, and I assure you that in being prevented from being present at some of your meetings I am only sorry that unavoidable circumstances have not permitted me to be there. I have been doing my best to encourage the members to render the services that I have been able to render to the Institute.

It has been a source of very great pleasure to me indeed, and I assure you that in being prevented from being present at some of your meetings I am only sorry that unavoidable circumstances have not permitted me to be there. I have been doing my best to encourage the members to render the services that I have been able to render to the Institute.

Mr. A. JOHNSON referred in a few words to the question of Charbonneau's coal, recommending the members to follow the course suggested by the President. He himself believed that it was merely a question of mining and that eventually when they had found where and what the best coal was, the mine would be opened.

Mr. A. JOHNSON then said:—We have a better opportunity than in any other part of the world of studying different coals, for the very best and the very worst come here. He thought that a paper on the subject, which was a wide one, would be very interesting and profitable.

The meeting then broke up, and a convivial evening was spent.

ALICE MEMORIAL HOSPITAL.

STATISTICS FOR JANUARY, 1893.
Patients remaining in Hospital on 1st January 57
In-Patients admitted to Hospital during January 50
Total number treated as In-Patients 107

Of these there were—

Discharged Cured 38

Discharged Relieved 11

Dead in Hospital 4

In-Patients remaining in Hospital on 1st February 54
Out-Patients, New Cases 714
Out-Patients, Return Visits 678
Total number of Out-Patients visits 1,392

Operations 2
Dental cases 23
Vaccinations 10
John C. THOMSON, M. D., Superintendent.

A TRINIDAD ESTIMATE OF SIR WILLIAM ROBINSON.

Under the heading of "Stagnation & Progress" in *Public Opinion*, a Trinidad newspaper writes as follows:

"On the whole, an intelligent interest in the affairs of the colony, the reign of inertia inaugurated by Sir Napier Broom presents the most discouraging features. Successing as it does the vigorous, good policy of Sir William Robinson, comparisons must naturally be instituted. Those comparisons are not favourable to our present ruler. We were not among the first to notice the decline of the Empire, but we did not do so for the Royal Yacht squadron's regatta, which begins in August. The Emperor will come over in his new yacht, which is being built at Eltham and is now nearly finished. He is reported to have received a cablegram from the King of Sweden, asking him to visit the King of Sweden. The Duke of Bedford, the Emperor's son, has been received in London, a nation. All the customary toasts to the Queen were omitted."

EDMUND YATES'S GOSSIP.

NEW YORK, 3rd January.

Edmund Yates cables from London:—The Emperor has again announced his intention of paying another visit to Ceylon this year, and intends to be there for the Royal Yacht squadron's regatta, which begins in August. The Emperor will come over in his new yacht, which is being built at Eltham and is now nearly finished.

He is reported to have received a cablegram from the King of Sweden, asking him to visit the King of Sweden. The Duke of Bedford, the Emperor's son, has been received in London, a nation. All the customary toasts to the Queen were omitted."

Edmund Yates cables from London:—The Emperor has again announced his intention of paying another visit to Ceylon this year, and intends to be there for the Royal Yacht squadron's regatta, which begins in August. The Emperor will come over in his new yacht, which is being built at Eltham and is now nearly finished.

He is reported to have received a cablegram from the King of Sweden, asking him to visit the King of Sweden. The Duke of Bedford, the Emperor's son, has been received in London, a nation. All the customary toasts to the Queen were omitted."
